

Technical Requirements

Technically speaking, you don't have to download or buy any software to use WeSeed EDU in your classroom. Of course, you will need a computer. WeSeed was designed to be compatible with both PC and Mac computers and most operating systems used in today's classrooms. Below are the specific requirements for using WeSeed.com.

Browser Support

- WeSeed.com is best viewed on Firefox version 3 or later
- WeSeed.com is also viewable on the latest versions of Internet Explorer and Safari
- There are viewing issues with Internet Explorer version 6 and earlier, please upgrade for optimal performance

File Download Support

- WeSeed.com offers many valuable resources in the form of downloadable Adobe PDF files. If you are having trouble viewing these files, it may be because Adobe Reader is not installed on your computer. Adobe Reader is *free* software and can be downloaded at the official site: <http://get.adobe.com/reader>

Network Configuration

- Many networks are protected by a firewall, which can prevent the ability to access some websites. If access to WeSeed.com is blocked behind a network firewall, please contact your system administrator

Privacy

- You and your students' privacy are very important to us. We do not release or sell any of your personal information to any third parties. Read more about our privacy policy at www.weseed.com/privacyPolicy.html

If you have any issues, contact your system administrator or email us at educators@weseed.com.
